

Brief:

GlobalGames®Sports were engaged by Power League to provide a package of inflatable pitches to create the tournament set-up, as pictured, at The Reebok Stadium, Bolton.

The event was the Barclays Corporate Cup and with a repeat of last year's event we delivered the perfect match settings for some great football.

Event:

The event was a logistical challenge to juggle limited access and exit times with the heavy work of building and dismantling the 4 x 40m x 30m inflatable pitches.

Additionally power supplies had to be managed and distributed to create maximum effect from the incredible pitch surrounds.

When in place they provided the perfect tournament set-up for the football to take place and provided each of the participants with their own "stadium-feel".

The Results:

Despite a tropical-standard downpour towards the end of the day the event was a massive success:

- The players were delighted with the enclosed pitches in which they played their matches inside the bigger, impressive, Reebok Stadium
- The clients (Power League and Barclays) were delighted with the appearance of the kit, the professionalism of our staff and our ability to meet the deadlines
- The stadium were happy with our ability to meet their H&S criteria and be flexible in terms of access and other details
